PRESS RELEASE

For immediate release

Northern Air Cargo New Oversized Freight Service Center

Northern Air Cargo is proud to announce the opening of the NAC Shack on their Anchorage ramp facility. As part of a continuing effort to make shipping easier for their customers, NAC has created a new outdoor customer service center for receiving oversized freight. They can now process large flatbed trucks with oversized loads with one-step outdoor shipping, avoiding the need to go inside for paperwork.

For extra quick processing, drivers can call ahead to 771-6161 or pull up to their back gate. Customers can expect to spend less time standing in line and more time getting back to business. NAC expects that this addition will also result in shorter wait times for their other customers with small shipments.

Northern Air Cargo is Alaska's largest all-cargo carrier with offices in Anchorage, Bethel, Deadhorse, and Fairbanks.
